E-Tool 11 Drawer Rugged Mobile Manager (Managed)

Description
The Tracewell E-Tool Mobile Manager is the answer to Defense and Commercial Industries’ initiative to implement and field electronic media platforms tools reducing the reliance on traditional paper bound manuals providing a reliable and secure path for Interactive Electronic Tech Manuals IETM. Tracewell Systems’ objective is to provide a storage, transport and charging system with a single point LAN connection for a wide variety of E-Tool platforms that is lightweight, efficient, durable and cost effective.

Features
• Accommodates a wide variety of rugged laptops, PDAs and power supplies
• Drawers are vented to allow warm air to escape
• Power surge protection is provided to protect electronics from voltage spikes
• Durable chassis finish
• All drawers are lockable from with a single padlock
• One drawer open feature – allows for a single drawer to be open at a time to prevent the cabinet becoming unstable
• Equipped with a Cisco Managed Ethernet switch
• An additional AC outlet is provided on the rear of the unit near the top to accommodate a multiple battery charger (chargers not included)
• Fans are standard to ensure sufficient cooling while charging
• Large over-sized storage drawer
• Stable reinforced chassis when empty and fully loaded
• Heavy duty casters for easy maneuvering / transport
• A single power cord provides power to all the drawers and plugs directly into a standard 120VAC, 50-60Hz wall outlet
Specifications

- **Input Voltage:** 120VAC (nominal), single phase; includes surge protection
- **Input Frequency:** 50/60 Hz (nominal)
- **Input Current:** 15 amps (maximum, steady state), circuit breaker protected
- **Inrush Current:** Variable, depending on customer installed hardware
- **Output Power:** 14.5A combined drawer output (maximum, all 10-drawers combined)
- **Drawer Outlets:** Each drawer includes one (1) AC convenience outlet; each drawer is current limited to 3A
- **Rear Outlets:** One (1) rear panel convenience AC output; current limited to 3A
- **AC Outlets:** NEMA 5-15R, 3-pin with ground, non-isolated voltage (tied directly to input)
- **Drawer LAN:** Each drawer includes one (1) 10/100Mbs Ethernet port (RJ-45); drawer Ethernet ports route through one internal Ethernet switch
- **Cabinet LAN:** Rear panel, three 10/100Mbs Ethernet port (RJ-45); a) connected directly to Ethernet switch b) allows for daisy chaining units together c) for a console port if a managed switch is used
- **Dimensions:** 26.6”(D), 19.7”(W), 53.0”(H, with casters)
- **Weight:** 105 lbs. (empty)
- **Temperature:** 0 deg. C to +50 deg. C (operating)
- **Humidity:** 5 - 95%, non-condensing

Options

- Encrypted wireless
- CAC reader
- Variety of electrical and mechanical locking features
- RFID
- Software drawer asset administration
